Featured Artists:

Francine Bauer conveys intensely personal moments through intuition and imagination. Her goal is to explore the purity of raw, untamed, and nonlinear emotion using color, line, form, and nontraditional methodologies. Bauer's current series, Beautifully Broken Things, is rooted in the Japanese art of Kintsugi, which treats the breakage and repair of an object as part of its history rather than something to disguise. Bauer has extended this to include all of us, beautiful in our fragility, broken physically or emotionally, and more beautiful for having had these experiences. Learn more at: FrancineJBauer.com
